June 7, 2017

Independent Auditor's Report

To the Shareholders of Andrew Peller Limited

We have audited the accompanying consolidated financial statements of Andrew Peller Limited, which comprise the consolidated balance sheets as at March 31, 2017 and 2016 and the consolidated statements of earnings, comprehensive income, changes in equity and cash flows for the years then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Andrew Peller Limited as at March 31, 2017 and 2016 and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

1 Nature of operations

Andrew Peller Limited (the Company) produces and markets wine and wine related products. The Company's products are produced and sold predominantly in Canada. The Company is incorporated under the Canada Business Corporations Act and is domiciled in Canada. The address of its head office is 697 South Service Road, Grimsby, Ontario, L3M 4E8.

2 Summary of significant accounting policies

Basis of presentation

These consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

These consolidated financial statements were approved by the Board of Directors for issue on June 7, 2017.

Basis of measurement

The consolidated financial statements have been prepared under the historical cost convention, except for derivatives, which are measured at fair value, and biological assets, which are measured at fair value less costs to sell.

Basis of consolidation

These consolidated financial statements include the accounts of the Company and all subsidiary companies. Subsidiaries are those entities the Company controls by having the power to govern their financial and operating policies. Subsidiaries are fully consolidated from the date on which control is obtained by the Company and are de-consolidated from the date control ceases. Intercompany transactions, balances, income and expenses, and profits and losses are eliminated.

Foreign currency translation

The consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in currencies other than the Company's functional currency are recognized in the consolidated statements of earnings.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Revenue

The Company records a sale when: it has transferred the risks and rewards of ownership of the goods to the buyer; the Company has no continuing managerial involvement over the goods; it is probable the consideration will be received by the Company; and the amount of revenue and costs related to the transaction can be measured reliably. For transactions with provincial liquor boards, licensee retail stores and wine kit retailers, the Company's terms are primarily "FOB shipping point". Accordingly, sales are recorded when the product is shipped from the Company's distribution facilities. Sales to consumers through retail stores, winery restaurants, and estate wineries are recorded when the product is purchased.

Excise taxes collected on behalf of the federal government, licensing fees, and levies paid on wine sold through the Company's independent retail stores in Ontario, product returns, breakage, promotional and advertising allowances, and discounts provided to customers are deducted from gross revenue to arrive at sales.

Cost of goods sold

Cost of goods sold includes the cost of finished goods inventories sold during the year, inventory writedowns and revaluations of agricultural produce to fair value less costs to sell at the point of harvest.

Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined on an average cost basis. The Company utilizes a weighted average cost calculation to determine the value of ending inventory (bulk wine and finished goods). Average cost is determined separately for import wine and domestic wine and is calculated by varietal and vintage year.

Grapes produced from vineyards controlled by the Company that are part of inventories are measured at their fair value less costs to sell at the point of harvest.

The Company includes borrowing costs in the cost of certain wine inventories that require a substantial period of time to become ready for sale.

Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated amortization. Cost includes borrowing costs for assets that require a substantial period of time to become ready for use. Amortization of buildings, vines and vineyard infrastructure and machinery and equipment is calculated on the straight-line basis in amounts sufficient to amortize the cost of buildings, vines and vineyard infrastructure and machinery and equipment over their estimated useful lives as follows:

Buildings	40 years
Vines and vineyard infrastructure	20 years
Machinery and equipment	5 to 20 years

Land is carried at cost and is not amortized.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Vines and vineyard infrastructure amortization commences in the year the vineyard yields a crop that approximates 50% of expected annual production.

Biological assets

The Company measures biological assets, consisting of grapes grown on vineyards controlled by the Company, at cost, which approximates fair value as there has been minimal biological transformation since the initial cost incurred. The initial costs incurred are comprised of direct expenditures required to enable the biological transformation of agricultural produce.

At the point of harvest, the fair value of biological assets is determined by reference to local market prices for grapes of a similar quality and the same varietal. At this point, agricultural produce is measured at fair value less cost to sell, which becomes the basis for the cost of inventories after harvest.

Gains or losses arising from a change in fair value less costs to sell are included in the consolidated statements of earnings in the period in which they arise.

Intangible assets

Intangible assets include brands, customer contracts, customer lists, contract co-packaging arrangements, software and customer-based relationships. These intangible assets are recorded at their estimated fair value on the date of acquisition or at cost for regular way purchases.

	Amortization method	Useful life	Remaining useful life
Brands	n/a	indefinite	indefinite
Customers	straight-line	10 - 20 years	3 - 11 years
Contract packaging	straight-line	10 years	2 years
Software	straight-line	5 years	3 - 5 years
Other	straight-line	5 years	1 year

Brands have been assessed as having an indefinite life because the expected usage, period of control and other factors do not limit the life of these assets. Intangible assets with an indefinite life are not amortized but are tested for impairment at least annually or more frequently if events or circumstances indicate the asset might be impaired. To test for impairment the Company primarily compares a cash generating unit's (CGU) value in use, determined based on expected future discounted cash flows, to its carrying value. If necessary, a CGU's fair value is also considered. An impairment charge is recorded to the extent the carrying value of a CGU exceeds the greater of the CGU's fair value and its value in use. Management has determined there was no impairment in intangible assets for the years ended March 31, 2017 and March 31, 2016.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Goodwill

Goodwill represents the cost of a business combination in excess of the fair values of the net tangible and identifiable intangible assets acquired. Goodwill is not amortized but is tested for impairment on an annual basis, or more frequently if circumstances indicate goodwill may be impaired. The Company assigns goodwill combined with other assets to a CGU based on certain regions and product lines, which is the lowest level at which the combined assets generate independent cash inflows. To test for impairment the Company primarily compares a CGU's value in use, determined based on expected future discounted cash flows, to its carrying value. If necessary, a CGU's fair value is also considered. An impairment charge is recorded to the extent the carrying value of a CGU exceeds the greater of the CGU's fair value and its value in use. An impairment loss in respect of goodwill cannot be reversed. Management has determined there is no impairment in goodwill for the years ended March 31, 2017 and 2016.

Post-employment benefits

The Company sponsors defined contribution pension plans, defined benefit pension plans, post-employment medical benefit plans, and other post-employment benefit plans for certain employees. Contributions to the defined contribution pension plans are recognized as an expense as services are rendered by employees. The costs of the defined benefit plans, the post-employment medical benefit plans, and other post-employment benefit plans are actuarially determined and include management's best estimate of expected plan investment performance, the interest rate on the plan obligation, salary escalation, expected retirement ages, and medical cost escalation. The liability recognized in the consolidated balance sheets in respect of these plans is the present value of the defined benefit obligation at the end of the reporting period as determined by the Company's actuary less the fair value of plan assets adjusted for the unamortized portion of negative past service credits. The current service cost, amortization of past service credits, and the interest cost net of the expected return on plan assets are recognized in earnings in the period they arise. Adjustments arising from actuarially determined gains or losses are recognized in other comprehensive loss in the period in which they arise. The corresponding change in shareholders' equity is adjusted to retained earnings for the year.

Deferred income

Advance payments received for use of the Company's assets are initially recorded in deferred income. The income is recognized on a straight-line basis in net earnings over the period of use.

Financial instruments and hedge accounting

The Company classifies its financial instruments into the following categories: loans and receivables, liabilities at amortized cost, and financial assets and liabilities at fair value through profit or loss.

The Company has chosen to not apply hedge accounting to any of its derivative financial instruments. As a result of this policy choice, these derivative instruments are recorded initially and subsequently at fair value and the change in the fair value is recorded directly in the consolidated statements of earnings.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

The Company classifies accounts payable and accrued liabilities, dividends payable, bank indebtedness, and long-term debt as liabilities at amortized cost. Accounts payable and accrued liabilities and dividends payable are initially measured at the amount to be paid, which approximates fair value because of the short-term nature of these liabilities. Subsequently, they are measured at amortized cost. Bank indebtedness and long-term debt are measured initially at fair value, net of transaction costs incurred and subsequently at amortized cost using the effective interest method.

Accounts receivable are classified as loans and receivables. Accounts receivable are primarily amounts due from customers from the sale of goods or the rendering of services. The Company maintains an allowance for doubtful accounts to record an estimate of credit losses. When no recovery of an amount owing is possible, the account receivable is reduced directly.

Transaction costs related to long-term debt are netted against the carrying value of the liability and are then amortized over the expected life of the instrument using the effective interest method. The Company recognizes financial instruments when it becomes a party to the terms of the instrument and has elected to use "trade date" accounting for regular way purchases and sales of financial assets.

Embedded derivatives (elements of contracts whose cash flows move independently from the host contract similar to a stand-alone derivative) are required to be separated and measured at fair value if certain criteria are met. Management reviewed its contracts and determined the Company does not currently have any embedded derivatives in these contracts that require separate accounting and disclosure.

Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated statements of earnings on a straight-line basis over the period the asset is used under the lease. Leases under which the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the inception of the lease at the lower of the fair value of the leased property and the present value of the minimum lease payments. Payments on finance leases are allocated to the liability and expense so as to recognize a constant rate of interest on the remaining balance of the liability. Assets acquired under finance leases are amortized over their useful lives.

Impairment of non-financial assets

The Company reviews long-lived assets and definite life intangible assets for impairment when events or circumstances indicate an asset may be impaired. Assets are assigned to a CGU based on the lowest level at which they generate independent cash inflows. When there is an indication of impairment, an impairment charge is recorded to the extent the carrying value of a CGU exceeds the greater of the CGU's fair value less costs to dispose and its value in use, determined by discounting expected cash flows (recoverable amount). An impairment loss is reversed if a CGU's recoverable amount increases to the extent that the related assets' carrying amounts are no larger than the amount that would have been determined, net of amortization, had no impairment loss been recorded.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Net earnings per share

Basic net earnings per share have been calculated using the weighted average number of Class A and Class B shares outstanding during the year. Diluted net earnings per share have been calculated by considering the impact of any potential ordinary shares that are dilutive on the two classes of shares when considered together.

Dividends

Dividends on Class A and Class B shares are recognized in the period in which they are formally declared by the Board of Directors.

Segmented information

The Company produces and markets wine and spirits products in Canada. A significant portion of the Company's sales are made to the liquor control boards in each province in which the Company transacts business. Management has concluded that the chief operating decision maker allocates resources and assesses performance of the Company on a consolidated basis. Furthermore, based on the type of products sold and the fact that its customers are similar in nature, the Company operates in a single operating segment. In addition, a substantial portion of the Company's sales are made in Canada. As a result, management has concluded the Company operates in one geographic segment.

Income taxes

Current income tax is the expected amount of tax payable or recoverable on taxable income or loss during the period. Current income tax may also include adjustments to taxes payable or recoverable in respect of previous periods.

The Company accounts for deferred income taxes based on temporary differences, which are the differences between the carrying amount of an asset or liability and its tax base. Deferred income taxes are provided for all temporary differences between the carrying amount and tax bases of assets and liabilities, except for those arising from the initial recognition of goodwill or for those arising from the initial recognition of an asset or liability in a transaction that is not a business combination and has no impact on earnings or taxable income or loss. Deferred income tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled. The deferred income tax provision (recovery) recorded in net earnings and other comprehensive loss represents the change during the year in deferred income tax assets and deferred income tax liabilities.

Contingencies

In the ordinary course of business activities, the Company may be contingently liable for litigation and claims. Management believes adequate provisions have been recorded in the accounts where required. Although it is not possible to accurately estimate the extent of potential claims, if any, management believes the ultimate resolution of such contingencies would not have a material adverse effect on the financial position of the Company.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Comprehensive income

Comprehensive income is comprised of net earnings and other comprehensive loss. Other comprehensive loss represents the change in equity for a period that arises from transactions that are required to be or are elected to be recognized outside of net earnings. The Company has chosen to record actuarial gains and losses on defined benefit pension plans and other post-employment benefit plans in other comprehensive loss in the period incurred.

Equity

The Company separately presents changes in equity related to capital stock, retained earnings and accumulated other comprehensive loss in the consolidated statements of changes in equity.

Recently adopted accounting pronouncements

During December 2014, the IASB issued amendments to IAS 1, Presentation of Financial Statements which clarifies the concept of materiality as it applies to information disclosed in the financial statements. The amendments also provide guidance on the presentation of subtotals, the structure of the notes to the financial statements, and the disclosure of significant accounting policies. The new requirements were adopted effective April 1, 2016. The adoption of these amendments did not have a significant impact on the consolidated financial statements.

Recently issued accounting pronouncements

In January 2016, the IASB issued an amendment to IAS 7, Statement of Cash Flows, introducing additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities. The amendments are effective for annual periods beginning on or after January 1, 2017. The adoption of these amendments are not expected to have a significant impact on the consolidated financial statements.

In January 2016, the IASB issued amendments to IAS 12, Income Taxes, to clarify the requirements for recognizing deferred tax assets on unrealized losses. The amendments clarify the accounting for deferred tax where an asset is measured at fair value and that fair value is below the asset's tax base. They also clarify certain other aspects of accounting for deferred tax assets. The amendments are effective for annual periods beginning on or after January 1, 2017. The adoption of these amendments are not expected to have a significant impact on the consolidated financial statements.

During July 2014, the IASB issued the complete version of IFRS 9, Financial Instruments - Classification and Measurement of Financial Assets and Financial Liabilities. IFRS 9 will replace IAS 39, Financial Instruments - Recognition and Measurement. In addition, IFRS 7, Financial Instruments - Disclosures was amended to include additional disclosure requirements on transition to IFRS 9. The mandatory effective date of applying these standards is for annual periods beginning on or after January 1, 2018. The standard uses a single approach to determine whether a financial asset is measured at amortized cost or fair value. The approach is based on how an entity manages its financial instruments (its business model) and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used. The standard requires that for financial liabilities measured at fair value, any changes in an entity's own credit

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

risk are generally to be presented in other comprehensive income instead of net earnings. A new hedge accounting model is included in the standard, as well as increased disclosure requirements about risk management activities for entities that apply hedge accounting. The Company is currently evaluating the potential impact of this standard, however, it is not expected to have a significant impact on the consolidated financial statements.

During May 2014, the IASB issued IFRS 15, Revenue from Contracts with Customers, which supersedes IAS 18, Revenue, and IAS 11, Construction Contracts. The standard details a revised model for the recognition of revenue from contracts with customers. In April 2016, the IASB has amended IFRS 15 to clarify the guidance on identifying performance obligations, licences of intellectual property and principal versus agent. The amendments also provide additional practical expedients on transition. The standard is effective for first interim periods within annual periods beginning on or after January 1, 2018. The Company is currently in the process of evaluating the potential impact this new guidance will have on the Company's consolidated financial statements. The Company has not completed this evaluation and therefore, cannot conclude whether the guidance will have a significant impact on the consolidated financial statements at this time. However, based on preliminary work completed, the Company is considering the implications the new standard may have on its agency wine businesses, presentation of certain customer related trade spending, as well as the timing of recognition of certain promotional discounts, which are areas that could potentially be impacted by the adoption of the new guidance.

In January 2016, the IASB issued IFRS 16, Leases, which will replace IAS 17, Leases and related Interpretations. The new standard will be effective for fiscal years beginning on or after January 1, 2019, with early adoption permitted provided the Company has adopted IFRS 15, Revenue from Contracts with Customers. The new standard requires lessees to recognize a lease liability reflecting future lease payments and a "right-of-use asset" for virtually all leases contracts, and record it on the statement of financial position, except with respect to lease contracts that meet limited exception criteria. Given that the Company has significant contractual obligations in the form of operating leases under IAS 17, there will be a material increase to both assets and liabilities on adoption of IFRS 16, and material changes to the timing of recognition of expenses associated with the lease arrangements. The Company is analyzing the new standard to determine the impact of adopting this standard.

3 Critical accounting estimates and judgments

The preparation of consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the consolidated financial statements, the reported amounts of revenues and expenses during the reporting periods and the extent of and the reported amounts in disclosures. Actual results may vary from current estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are recorded in the period in which they change. Specific areas of uncertainty include but are not limited to:

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Impairment of goodwill

Testing goodwill for impairment at least annually involves estimating the recoverable amount of the CGUs to which goodwill is allocated. This requires making assumptions about future cash flows, growth rates, market conditions and discount rates, which are inherently uncertain. Actual amounts may vary from these assumptions and cause significant adjustments. Management has concluded that a 10% change in any key assumption in the goodwill impairment test would not result in an impairment of goodwill as at March 31, 2017 and March 31, 2016.

Post-employment benefits

Measuring the liability for post-employment benefits uses assumptions for the discount rates, increases in compensation, increases in medical costs and the timing of the payment of benefits. Actual amounts may vary from these assumptions and cause significant adjustments.

Fair value of grapes at the point of harvest

Where possible, the fair value of grapes at the point of harvest is determined by reference to local market prices for grapes of a similar quality and same varietal. For grapes for which local market prices are not readily available, the average price of similar grapes is used. Actual amounts may vary from these assumptions and cause significant adjustments.

4 Inventories

	2017		2016
Packaging materials and supplies	\$ 9,627	\$	9,307
Bulk wine and spirits	70,806		64,697

At March 31, 2017					
Cost	\$ 4,816	\$ 40,947	\$ 55,120	\$ 122,325	\$ 223,208
Accumulated amortization	-	(9,398)	(19,293)	(75,679)	(104,370)
Net carrying amount	\$ 4,816	\$ 31,549	\$ 35,827	\$ 46,646	\$ 118,838

Included in buildings and machinery and equipment are assets amounting to \$12,378 (2016 - \$4,507) that are under development and are not being amortized.

Contractual commitments to purchase property, plant and equipment were \$2,890 as at March 31, 2017 (2016 - \$10,687).

Included in machinery and equipment are assets with a net carrying amount of \$66 (2016 - \$124) that were purchased under a finance lease.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

6 Biological assets

Biological assets consist of grapes prior to harvest that are controlled by the Company. The Company owns and leases land in Ontario and British Columbia to grow grapes in order to secure a supply of quality grapes for the making of wine.

During the year ended March 31, 2017, the Company harvested grapes valued at \$6,238 (2016 - \$6,479).

The changes in the carrying amount of biological assets are as follows:

	2017	2016
Carrying amount - Beginning of year	\$ 1,196	\$ 1,129
Net increase in fair value less costs to sell due to biological transformation	6,442	6,546
Transferred to inventory on harvest	(6,238)	(6,479)
Net gain	204	67
Biological assets	\$ 1,400	\$ 1,196

The Company is exposed to financial risk because of the long period of time between the cash outflow required to plant grape vines, cultivate vineyards, and harvest grapes and the cash inflow from selling wine and related products from the harvested grapes.

Substantially all of the grapes from owned and leased vineyards are used in the Company's winemaking processes. Owned and leased vineyards, in combination with supply contracts with grape growers, are used to secure a supply of domestic grapes. These strategies reduce the financial risks associated with changes in grape prices.

8 Goodwill

In order to test goodwill for impairment, the Company allocates the carrying value of goodwill to CGUs based on the lowest level that goodwill is monitored for internal management purposes. The aggregate carrying amount of goodwill allocated to each unit is as follows:

	2017	2016
Ontario and eastern Canadian wine	\$ 3,134	\$ 3,134
Western Canadian wine	10,530	10,530
Personal winemaking products	23,809	23,809
	\$ 37,473	\$ 37,473

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

The Company determined the recoverable amount of the related CGUs by estimating their value in use. Key assumptions used are:

	2017	2016
Pre-tax discount rate	11%	11%
Period of projected cash flows	5 years	5 years
Growth rate beyond period of projected cash flows	3%	4%

The Company uses past experience and current expectations about future performance in projecting cash flows, which are based on financial budgets for five years. For the period after five years, the Company projects cash flows using an assumed growth rate, which is based on expectations about long-term economic growth in Canada and any known industry specific factors that may influence long-term growth in the Canadian wine industry. The discount rate is estimated by referring to external sources of information about the cost of capital and the leverage of companies that operate in a similar industry to the Company and that are of similar size. The rate determined is then adjusted to a pre-tax basis.

9 Bank indebtedness

Significant terms of the Company's operating loan facility are summarized below. The floating rates are stated in relation to the one to six-month Canadian Dealer Offered Rate (CDOR).

	2017	2016
Bank indebtedness	\$ 36,620	\$ 33,701
Significant terms		
Committed until	July 31, 2021	July 31, 2020
Borrowing limit	\$90,000	\$90,000
Interest rate	CDOR + 1.25%	CDOR + 1.25%
Unused amount	\$53,380	\$56,299

10 Accounts payable and accrued liabilities

	<hr/>		<hr/>
	51,084		52,308
Less: Current portion	4,406		4,106
	<hr/>		<hr/>
	\$ 46,678	\$	48,202
	<hr/>		<hr/>

On April 28, 2014, the Company amended its debt facilities including the term loan. The terms of the debt facilities require monthly principal repayments on the operating facility of the term loan until maturity of \$333. Interest is based on the one to six-month CDOR rates plus an applicable margin based on the Company's leverage. The Company has two interest rate swaps in place to fix the interest rate on the amount outstanding on the operating facility of the term loan. From September 1, 2015 to April 26, 2019, the interest rate is fixed at 2.16%, plus the applicable margin. From April 30, 2019 to July 31, 2020, the interest rate is fixed at 1.65%, plus the applicable margin.

The Company also has a \$15,000 term facility, which is available until July 31, 2021 and can be drawn on for the purpose of making capital expenditures. On December 30, 2016, \$3,000 was drawn on this facility, which requires monthly principal repayments until maturity of \$25. Interest is based on the one to six-month CDOR rates plus an applicable margin based on the Company's leverage.

On December 30, 2016, the Company amended its debt facilities to extend the maturity date to July 31, 2021, to revise certain financial covenants and to update the applicable margin based on the Company's leverage, as defined by the amended credit agreement. As at March 31, 2017 and 2016, the applicable margin was 1.25%.

The Company and its subsidiaries have provided their assets as security for these loans.

Interest expense on long-term debt during the year was \$1,858 (2016 - \$2,297).

12 Post-employment benefits

Defined contribution plans

The total expenses for the defined contribution savings plans were \$1,519 (2016 - \$1,432).

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Defined benefit plans

The Company has funded defined benefit pension plans. The Company also has an unfunded post-retirement medical benefits plan for certain employees and provides a monthly wine allowance to retired employees, which are collectively referred to as other post-employment benefits.

Nature

The Company's defined benefit pension plans pay benefits based on a percentage of final average salary. There are two defined benefit pension plans in British Columbia with members who continue to accrue benefits. New employees are no longer entitled to accrue benefits under these defined benefit pension plans. There is one defined benefit pension plan in Ontario and no further benefits accrue to the members of this plan. All members of the defined benefit pension plan in Ontario have retired. The Company is responsible for administering these pension plans and determining investment policies. A committee of the Company's Board of Directors is responsible for overseeing the Company's defined benefit pension plans.

Regulatory information

The defined benefit pension plans are governed by the Pension Benefits Standards Act in British Columbia and the Pension Benefits Act in Ontario. An appointed actuary prepares a valuation at least every three years for each of the plans. These valuations determine the Company's minimum contributions. The minimum contributions are primarily based on the normal going concern cost, the funding deficit amortized over 15 years, and the solvency deficit amortized over five years. The solvency deficit is calculated assuming the plan is wound up on the effective date of the valuation. Contributions could be reduced in certain instances via a funding holiday if requirements of the relevant regulations are met, which normally requires the plan to have a surplus above certain threshold levels.

Risks

The defined benefit plan's assets are invested in mutual funds. The investment mix for each plan is chosen with the objective that sufficient assets will be available to pay benefits as they come due and to achieve a reasonable return at an acceptable level of risk to stakeholders. The defined benefit plans subject the Company to market, interest rate, currency, price, credit, liquidity and longevity risks, which are typical of such plans. The most significant of these risks is that the expense and cash contributions related to these plans depend on the discount rate used to measure the liability to pay future benefits and the market performance of the plan's assets set aside to pay these benefits. A decline in long-term interest rates or in asset values could increase the Company's costs related to funding the deficit in these plans.

The significant actuarial assumptions adopted in measuring the Company's accrued benefit obligations and benefits costs are as follows:

	2017	2016
Discount rate for expenses	3.8%	3.6%
Discount rate for obligations	3.6%	3.8%
Rate of compensation increase	2.5%	2.5%
Rate of medical cost increases	5%	5%
Retirement age	60 - 65 years	60 - 65 years
Inflation rate	2.0%	2.0%
Mortality tables	CPM-B 2014 Private table	CPM-B 2014 Private table

The following table outlines the impact of a reasonable change in significant assumptions assuming all other assumptions are held constant. Changes in numerous assumptions may occur at the same time, which could increase or decrease the impact. With respect to a 1% increase or decrease in the inflation rate, the analysis excludes any impact this would have on the discount rate, medical cost trend rates and the rate of compensation increase.

	2017		2016	
	Pension benefits	Other post-employment benefits	Pension benefits	Other post-employment benefits
Increase (decrease) in the post-employment benefit obligations				
1% increase in the discount rate	\$ (3,301)	\$ (263)	\$ (2,721)	\$ (277)
1% decrease in the discount rate	4,023	339	3,440	414
1% increase in the rate of compensation increase	952	10	832	12
1% decrease in the rate of compensation increase	(840)	(9)	(717)	(11)
1% increase in the inflation rate	365	-	372	-
1% decrease in the inflation rate	(329)	-	(335)	-

At March 31, 2017, the accumulated actuarial losses recognized in other comprehensive loss were \$5,192 (2016 - \$5,183).

Plan assets

The plan assets consist of the following:

	2017		2016	
Mutual funds				
Fixed income	\$ 16,094	72%	\$ 15,127	72%
Equity	6,226	28%	5,839	28%
	\$ 22,320	100%	\$ 20,966	100%

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

15 Capital stock

Authorized

Unlimited Class A shares, non-voting

Unlimited Class B shares, voting

Issued

	2017		2016	
	Number of shares	Amount	Number of shares	Amount
Class A shares, non-voting	33,581,487	\$ 6,567	33,581,487	\$ 6,567
Class B shares, voting	9,012,123	400	9,012,123	400
	<u>42,593,610</u>	<u>\$ 6,967</u>	<u>42,593,610</u>	<u>\$ 6,967</u>

All of the issued Class A and Class B shares are fully paid and have no par value.

Class A shares are non-voting and are entitled to a dividend in an amount equal to 115% of any dividend paid or declared on Class B shares. Class B shares are voting and convertible into Class A shares on a one-for-one basis.

At the Annual and Special Meeting of Shareholders held on September 9, 2016, the Company's Class B shareholders approved a three-for-one share split for both the Company's Class A and Class B common shares. The additional shares were issued on October 14, 2016 to shareholders of record on September 23, 2016. The Company recorded the effect of the share split retroactively to all disclosures of share capital and per share amounts.

In February 2016, the Company repurchased and cancelled 300,000 Class A non-voting shares from Jalger Limited, a related party. This transaction was approved by the Company's Board of Directors. The repurchase price was calculated by reference to the average closing market price of the Class A shares for a period of 20 business days preceding the repurchase date. The repurchase price of \$2,254 was first allocated to capital stock based on the average per share carrying amount of the Class A shares. The remaining amount was allocated to retained earnings.

Quarterly dividends of \$0.0408 (previously \$0.0375) per Class A share and \$0.0355 (previously \$0.0326) per Class B share were approved by the Board of Directors on June 2, 2016 and are formally declared in each quarter.

The authorized share capital of the Company also consists of an unlimited number of preference shares, issuable in one or more series, of which 33,315 are designated as preference shares, Series A. As at March 31, 2017 and 2016, there were no preference shares issued or outstanding.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Stock purchase plan

The Company's full-time salaried, certain hourly employees and directors participate in a Company sponsored stock purchase plan. Under the terms of the plan, employees can purchase a certain number of Class A shares on an annual basis. Employees are required to pay 67% of the market price per Class A share. Directors can purchase 750 Class A shares and are required to pay 50% of the cost. The Company is responsible for the remainder of the cost and, during 2017, expensed \$268 (2016 - \$227) related to the employee program and \$68 (2016 - \$43) relating to the directors program. Officers of the Company also participate in an Equity Incentive Program, where Class A shares of the Company are purchased on their behalf from the open market. During 2017, the Company expensed \$313 (2016 - \$366) under this incentive program.

16 Nature of expenses

The nature of the expenses included in selling and administration and cost of goods sold, excluding amortization are as follows:

	2017		2016
Raw materials and consumables	\$ 173,225	\$	171,168
Employee compensation and benefits	63,412		58,548
Advertising, promotion and distribution	24,025		28,013
Occupancy	11,169		10,913
Repairs and maintenance	6,803		6,575
Other external charges	18,835		18,130
	<u>\$ 297,469</u>	\$	<u>293,347</u>

Other expenses (income) are as follows:

	2017		2016
Ongoing maintenance costs related to Port Moody winery facility (a)	\$ 524	\$	364
Income related to Port Moody winery facility (b)	(404)		(404)
	<u>\$ 120</u>	\$	<u>(40)</u>

- a) During fiscal 2006, the Company closed its Port Moody winery facility and transferred production to its winery operations in Kelowna, British Columbia. Effective July 1, 2012, the property was expropriated for a five-year period. The cost of maintaining this idle facility and costs associated with its expropriation amounted to \$524 in 2017 (2016 - \$364).
- b) Income amounting to \$404 (2016 - \$404) was recorded related to the Company's idle Port Moody property related to expropriation notices received by the Company.

Andrew Peller Limited

Net earnings per share - basic and diluted	\$ 0.46	\$ 0.40	

18 Commitments

In certain instances, the Company leases land for the purpose of operating vineyards. The terms of the land leases are 30 and 32 years, which expire in 2036 and 2029, respectively. Under the terms of one land lease, the Company has the option to agree in advance to purchase any grapes grown on the property at fair value for five or more years after the termination of the lease. The Company also has a right of first refusal to purchase the land under both land leases. The terms of such a purchase would be negotiated based on market conditions existing at the time of the purchase.

The Company leases various storage facilities, offices, and retail locations. The remaining terms of these leases range between one and ten years. The Company also leases various equipment and vehicles with remaining lease terms between one and five years. In many cases, the Company has renewal options for fair market rental prices at the time of renewal.

The Company's minimum lease payments as at March 31, 2017 under long-term non-cancellable leases are outlined in note 20 along with its other contractual obligations.

In 2017, minimum lease payments of \$5,289 (2016 - \$5,149) were recognized as an expense.

19 Non-cash working capital items

The change in non-cash working capital items related to operations is comprised of the change in the following items:

	2017		2016
Accounts receivable	\$ 1,250	\$	(2,607)
Inventories and current portion of biological assets	(9,626)		(1,921)
Prepaid expenses and other assets	(1,324)		(272)
Accounts payable and accrued liabilities	2,042		(3,499)
	<u>\$ (7,658)</u>	\$	<u>(8,299)</u>

20 Financial instruments

Classification of financial instruments

The classification and measurement of the financial assets and liabilities, as well as their carrying amounts and fair values are as follows:

Assets/liabilities	Category	Measurement	2017	
			Carrying amount	Fair value
Accounts receivable	Loans and receivables	Amortized cost	\$ 26,973	\$ 26,973
Bank indebtedness	Other liabilities	Amortized cost	36,620	36,620
Accounts payable and accrued liabilities	Other liabilities	Amortized cost	36,252	36,252
Dividends payable	Other liabilities	Amortized cost	1,690	1,690
Long-term debt	Other liabilities	Amortized cost	51,084	51,084
Interest rate swap liability	Derivatives	Fair value	1,060	1,060
Foreign exchange forward contracts liability	Derivatives	Fair value	8	8
			<u>2016</u>	
Assets/liabilities	Category	Measurement	Carrying amount	Fair value
Accounts receivable	Loans and receivables	Amortized cost	\$ 28,223	\$ 28,223
Bank indebtedness	Other liabilities	Amortized cost	33,701	33,701
Accounts payable and accrued liabilities	Other liabilities	Amortized cost	35,646	35,646
Dividends payable	Other liabilities	Amortized cost	1,553	1,553
Long-term debt	Other liabilities	Amortized cost	52,308	52,308
Interest rate swap liability	Derivatives	Fair value	2,174	2,174
Foreign exchange forward contracts liability	Derivatives	Fair value	1,126	1,126

Andrew Peller Limited
Notes to Consolidated Financial Statements
March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

The Company's interest rate swaps and foreign exchange contracts are derivatives and are recorded at fair value. As a result, unrealized gains and losses are included each period through earnings, which reflect changes in fair value.

Fair value

The fair value of accounts receivable, accounts payable and accrued liabilities and dividends payable approximates their carrying value because of the short-term maturity of these instruments.

The fair value of bank indebtedness and long-term debt is equivalent to its carrying value because the variable interest rate is comparable to market rates. The fair value of the interest rate swaps used to fix the interest rate on long-term debt is included in the current and long-term derivative financial instruments in the consolidated balance sheets.

The fair value of foreign exchange forward contracts is determined based on the difference between the contract rate and the forward rate at the date of the valuation.

The fair value of the interest rate swaps is determined based on the difference between the fixed interest rate in the contract that will be paid by the Company and the forward curve of the floating interest rates that are expected to be paid by the counterparty. The fair value of foreign exchange forward contracts and the interest rate swaps are adjusted to reflect any changes in the Company's or the counterparty's credit risk.

Fair value estimates are made at a specific point in time, using available information about the instrument. These estimates are subjective in nature and often cannot be determined with precision.

The net unrealized loss on derivative financial instruments is comprised of:

	2017	2016
Unrealized (gains) losses on foreign exchange forward contracts	\$ (1,118)	\$ 1,823
Unrealized gains on the interest rate swaps	(1,114)	(265)
	<u>\$ (2,232)</u>	<u>\$ 1,558</u>

The fair value measurements of the Company's financial instruments are classified in the hierarchy below according to the significance of the inputs used in making the fair value measurements.

Objectives and policy relating to financial risk management

Interest rate risk

The Company is exposed to interest rate risk as a result of cash balances, floating rate debt, and interest rate swaps. Of these risks, the Company's principal exposure is that increases in the floating interest rates on its debt, if unmitigated, could lead to decreases in cash flow and earnings. The Company's objective in managing interest rate risk is to achieve a balance between minimizing borrowing costs over the long term, ensuring it meets borrowing covenants, and ensuring it meets other expectations and requirements of investors. To meet these objectives, the Company's policy is to effectively fix the rates on long-term debt to match the duration of investments in long-lived assets and to use floating rate funding for short-term borrowing.

The Company has effectively fixed its interest rate on its long-term debt until July 2020 by entering into interest rate swaps. The interest rate swaps are measured at fair value. An unrealized gain of \$1,114 (2016 - \$265) was recognized on the interest rate swaps, which is classified as a component of the net unrealized gain on derivative financial instruments in the consolidated statements of earnings.

The Company's short-term borrowings are funded using a floating interest rate and as such are sensitive to interest rate movements. As at March 31, 2017, with other variables unchanged, a 100 basis point change in interest rates would impact the Company's net earnings by approximately \$271 (2016 - \$249), exclusive of the mark-to-market adjustments on the interest rate swaps.

Andrew Peller Limited
Notes to Consolidated Financial Statements
March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Credit risk

Credit risk arises from cash, derivative financial instruments and accounts receivable. The Company places its cash and cash equivalents with major Canadian financial institutions. Counterparties to derivative contracts are also major financial institutions.

Credit risk for trade receivables is monitored through established credit monitoring activities. Over 50% of the Company's accounts receivable balance relates to amounts owing from Canadian provincial liquor boards. Excluding accounts receivable from Canadian provincial liquor boards, the Company does not have a significant concentration of credit risk with any single counterparty or group of counterparties. Amounts owing from Canadian provincial liquor boards represent \$14,115 (2016 - \$14,896) of the total accounts receivable for which no allowance has been provided. Of the remaining non-provincial liquor board balances, \$948 (2016 - \$1,413) was over thirty days past due as at March 31, 2017. An allowance for doubtful accounts of \$127 (2016 - \$124) has been provided against these accounts receivable amounts, which the Company has determined represents a reasonable estimate of amounts that may be uncollectible.

Sales to its largest customer, a provincial Crown corporation, were \$60,415 (2016 - \$56,340) during the year ended March 31, 2017. Sales to its second largest customer, a branch of a provincial government, were \$41,304 (2016 - \$41,770) during the year.

An analysis of accounts receivable is as follows:

	2017		2016
Liquor boards	\$ 14,115	\$	14,896
Non-liquor boards			
Current	10,709		10,114
Past due 0 - 30 days, due on delivery accounts	534		603
Past due 0 - 30 days	794		1,321
Past due 31 - 60 days	332		605
Past due > 60 days	616		808
Allowance for doubtful accounts	(127)		(124)
	<u>\$ 26,973</u>	\$	<u>28,223</u>

The change in the allowance for doubtful accounts was as follows:

	2017		2016
Balance - Beginning of year	\$ 124	\$	99
Provision for current year	141		89
Bad debts	(138)		(64)
	<u>\$ 127</u>	\$	<u>124</u>

Liquidity risk

The Company incurs obligations to deliver cash or other financial assets on future dates. Liquidity risk inherently arises from these obligations, which include requirements to repay debt, purchase grape inventory and make operating lease payments.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

The Company manages liquidity risk by maintaining adequate cash and cash equivalent balances and by appropriately utilizing its operating line of credit. Company management continuously monitors and reviews both actual and forecasted cash flows and matches the maturity profile of financial assets and financial liabilities. Accounts payable and accrued liabilities are generally due within 30 days.

The following table outlines the Company's contractual undiscounted obligations. The Company analyzes contractual obligations for financial liabilities in conjunction with other commitments in managing liquidity risk. Contractual obligations include long-term debt, the expected payments under swap agreements that fix the Company's interest rate on long-term debt, operating leases and commitments on short-term forward foreign exchange contracts used to mitigate the currency risk on purchases denominated in foreign currencies as at March 31, 2017:

	< 1 year	2 - 3 years	4 - 5 years	> 5 years	Total
Long-term debt	\$ 4,406	\$ 8,812	\$ 38,359	\$ -	\$ 51,577
Leases and royalties	5,050	6,112	3,273	6,462	20,897
Pension obligations	520	958	581	1,173	3,232
Grape and bulk wine purchase contracts	73,758	77,726	54,082	203,155	408,721
Packaging purchase contracts	34,827	3,338	-	-	38,165
Bulk whiskey purchase contracts	1,007	390	-	-	1,397
	119,568	97,336	96,295	210,790	523,989
Interest rate swap	1,585	2,639	361	-	4,585
Foreign exchange forwards	30,183	-	-	-	30,183
Total contractual obligations	\$ 151,336	\$ 99,975	\$ 96,656	\$ 210,790	\$ 558,757

The Company's obligations under its interest rate swaps and foreign exchange forward contracts are stated above on a gross basis rather than net of the corresponding contractual benefits.

The Company has entered into grape purchase contracts with certain suppliers to purchase their crops at the time of harvest for prices set by the market. The amount of the commitment will change based on the total tonnes harvested or the prices set by the market for specific grapes and the amount included in the table above represents management's best estimate of the Company's commitment over the periods noted.

Foreign exchange risk

Certain of the Company's purchases are denominated in US dollars (US\$), euro (EUR) or Australian dollars (AU\$). Any increases or decreases to the foreign exchange rates could increase or decrease the Company's earnings. To mitigate the exposure to foreign exchange risk, the Company has entered into forward foreign currency contracts.

The Company's foreign exchange risk arises on the purchase of bulk wine and concentrate, which are priced in US dollars, euro and Australian dollars. The Company's strategy is to hedge approximately 50% to 80% of its annual foreign exchange requirements prior to or during the beginning of each fiscal quarter. As at March 31, 2017, the Company has forward foreign currency contracts to buy US\$18,200 at rates ranging between \$1.32

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

and \$1.35, EUR1,225 at rates ranging between \$1.43 and \$1.44 and AU\$4,225 at rates averaging \$0.99. These contracts mature at various dates to December 2017. After considering the offsetting impact of these forward contracts, a 1% increase or decrease to the exchange rate of the US dollar, the euro or the Australian dollar would impact the Company's net earnings by approximately \$162 (2016 - \$87), \$27 (2016 - \$23) or \$98 (2016 - \$109), respectively. The Company has elected to not use hedge accounting and as a result, has recognized unrealized foreign exchange gains of \$1,118 (2016 - unrealized foreign exchange losses of \$1,823) in the consolidated statements of earnings as a component of the net unrealized gain on derivative financial instruments and has recorded the fair value of \$8 in accounts payable and accrued liabilities (2016 - \$1,126) in the consolidated balance sheets.

21 Capital disclosures

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern, to provide an adequate return to shareholders and to meet external capital requirements on debt and credit facilities.

The Company's capital consists of cash, bank indebtedness, long-term debt and shareholders' equity. The primary uses of capital are to make increases to non-cash working capital, fund maintenance and growth related capital expenditures, pay dividends and finance acquisitions. In order to meet the Company's objectives in managing capital, the Company prepares annual budgets of cash, earnings and capital expenditures that are updated during the year as necessary. The annual budget is approved by the Board of Directors.

As part of the existing debt agreement, the Company is subject to financial covenants, which consist of the following:

- funded debt to a rolling twelve-month EBITDA, which is defined as consolidated earnings before interest, amortization and taxes excluding unusual and non-recurring items that are agreed to by the Company and the lender; and
- fixed charge coverage ratio.

Capital expenditures are limited to \$20,000 on an annual basis. The unspent portion may be carried over to the next fiscal year.

Compliance with these covenants and the capital expenditure limit is monitored by management on a quarterly basis. As at March 31, 2017 and March 31, 2016, the Company was in compliance with these covenants and the capital expenditure limit.

22 Related parties and management compensation

The Company is controlled by Jalger Limited, which owns 66.5% of the Company's Class B voting shares. No individual has sole voting power or control in respect of the shares of the Company owned by Jalger Limited.

Andrew Peller Limited

Notes to Consolidated Financial Statements

March 31, 2017 and 2016

(in thousands of Canadian dollars, except per share amounts)

Compensation of directors and executives

The compensation expense recorded for directors and members of the Executive Management Team of the Company is shown below:

	2017		2016
Compensation and short-term benefits	\$ 6,951	\$	4,939
Post-employment benefits	302		248
Payments to a share purchase plan	381		409
	<u>\$ 7,634</u>	<u>\$</u>	<u>5,596</u>

The compensation and benefits expense consists of amounts that will primarily be settled within twelve months.

23 Segmented information

During the year, export sales were \$12,177 (2016 - \$13,873), primarily in the United States. The remainder of sales occurred in Canada. All of the Company's assets are located in Canada.

24 Events after the reporting period

On June 7, 2017, the Company's Board of Directors approved a 10% increase in the quarterly dividend for holders of its Class A and Class B shares, from \$0.0408 per Class A share and \$0.0355 per Class B share to \$0.0450 per Class A share and \$0.0391 per Class B share. This increased quarterly dividend will be paid on July 7, 2017 to shareholders of record at the close of business on June 30, 2017.
