FORWARD-LOOKING INFORMATION

Certain statements in this Annual Information Form (“AIF”) may contain “forward-looking statements” within the meaning of applicable securities laws, including the “safe harbour” provisions of the *Securities Act* (Ontario) with respect to Andrew Peller Limited (“APL” or the “Company”) and its subsidiaries. Such statements include, but are not limited to, statements about the growth of the business in light of the Company’s acquisitions; its launch of new premium wines; sales trends in foreign markets; its supply of domestically grown grapes; and current economic conditions. These statements are subject to certain risks, assumptions and uncertainties that could cause actual results to differ materially from those included in the forward-looking statements. The words “believe”, “plan”, “intend”, “estimate”, “expect” or “anticipate” and similar expressions, as well as future or conditional verbs such as “will”, “should”, “would” and “could” and similar verbs often identify forward-looking statements. We have based these forward-looking statements on our current views with respect to future events and financial performance.

With respect to forward-looking statements contained in this AIF, APL has made assumptions and applied certain factors regarding, among other things: future grape, glass bottle and wine prices; the Company’s ability to obtain grapes, imported wine, glass and its ability to obtain other raw materials; fluctuations in the U.S./Canadian, Euro/Canadian, and Australian/Canadian dollar exchange rates; its ability to market products successfully to its anticipated customers; the trade balance within the domestic Canadian wine market; market trends; reliance on key personnel; protection of the Company’s intellectual property rights; the economic environment; the regulatory requirements regarding producing, marketing, advertising and labelling its products; the regulation of liquor distribution and retailing in Ontario; and the impact of increasing competition.

These forward-looking statements are also subject to the risks and uncertainties discussed in the “Risk Factors” section and elsewhere in this AIF and other risks detailed from time to time in the publicly filed disclosure documents of APL which are available at www.sedar.com. Forward-looking statements are not guarantees of future performance and involve risks, uncertainties and assumptions which could cause actual results to differ materially from those conclusions, forecasts or projections anticipated in these forward-looking statements. Because of these risks, uncertainties and assumptions, you should not place undue reliance on these forward-looking statements. The Company’s forward-looking statements are made only as of the date of this AIF, and except as required by applicable law, APL undertakes no obligation to update or revise these forward-looking statements to reflect new information, future events or circumstances, or otherwise.

All information contained in this document is given as at March 31, 2015 unless otherwise indicated.

Subsidiaries

The following is APL's structure, including its significant subsidiaries as of the fiscal year ended March 31, 2015 and their jurisdiction of incorporation. All subsidiaries are wholly owned.

GENERAL DEVELOPMENT OF THE BUSINESS

The Company is engaged in the production, bottling and marketing of wines in Canada. The Company imports bottled premium wines from around the world and markets them through Grady Wine Marketing ("GWM"), and The Small Winemakers Collection Inc. ("SWM"). Vineco International Products, Winexpert, and Wine Kitz divisions of Global Vintners Inc. ("GVI") are producers of wine kits and related accessories for the home winemaking market.

Canada has joined other leading wine producing countries in the development of a body of regulations and standards for 100% Canadian content wines known as the Vintners Quality Alliance ("VQA") system. The VQA system oversees the regulation of the premium wine industry in Canada and has become recognized throughout the world as the appellation system for Canadian wines that meet strict standards of excellence.

The market for wine in Canada has continued to grow due to increased consumption by young consumers who have more recently adopted wine as their beverage of choice, the widely reported health benefits of moderate wine consumption and a movement towards an increased consumption of wine made by an aging population who favour the more sophisticated experience that wine offers.

These events have precipitated significant change in the Canadian wine industry. In order to succeed in this new environment, the Company has undertaken strategic growth initiatives to emerge as a leading participant in the Canadian wine market. Over the past three years, certain events have influenced the general development of APL's business.

The Company continuously reviews its premium and ultra-premium portfolio of wines to ensure its brands are well positioned for growth in the growing Canadian wine industry. Marketing and sales support will be focused on key brands sold across the country and management expects sales and marketing expenses for fiscal 2016 to increase over fiscal 2015 levels. The Company will continue to invest in capital expenditure programs to support its ongoing commitment to producing the highest-quality wines. The Company will continue to evaluate investment opportunities, including acquisitions, which support its strategic direction.

NARRATIVE DESCRIPTION OF THE BUSINESS

General

As at March 31, 2015, the Company is Canada's second largest producer and marketer of wines, with leading brands in all segments of the market in Canada. With wineries in British Columbia ("B.C."), Ontario, and Nova Scotia, the Company markets wines produced from grapes grown in Ontario's Niagara Peninsula, B.C.'s Okanagan and Similkameen Valleys, and from vineyards around the world. The Company's award-winning premium and ultra-premium VQA brands include *Peller Estates*, *Trius*, *Hillebrand*, *Thirty Bench*, *Crush*, *Wayne Gretzky*, *Sandhill*, *Calona Vineyards Artist Series*, and *Red Rooster*. Complementing these premium brands are a number of popularly priced varietal brands including *Peller Estates French Cross* in Eastern Canada, *Peller Estates Proprietors Reserve* in Western Canada, *Copper Moon*, *XOXO*, *skinnygrape*, *Black Cellar*, and *Verano*. *Hochtaler*, *Domaine D'Or*, *Schloss Laderheim*, *Royal*, and *Sommet* are our key value priced brands. The Company imports wines from major wine regions around the world to blend with domestic wine to craft these popularly priced and value priced brands. With a focus on serving the needs of all wine consumers, the Company produces and markets premium personal winemaking products through its wholly-owned subsidiary, GVI, the recognized leader in personal winemaking products. GVI distributes products through over 250 Winexpert and Wine Kitz authorized retailers and more than 600 independent retailers across Canada, the United States, the United Kingdom, New Zealand, Australia, and China. GVI's award-winning premium and ultra-premium winemaking brands include *Selection*, *Vintners Reserve*, *Island Mist*, *KenRidge*, *Cheeky Monkey*, *Ultimate Estate Reserve*, *Traditional Vintage*, and *Cellar Craft*. The Company owns and operates 101 well-positioned independent retail locations in Ontario under *The Wine Shop*, *Wine Country Vintners*, and *Wine Country Merchants* store names. The Company also owns GWM based in Vancouver and SWM based in Ontario; both of these wine agencies are importers of premium wines from around the world and are marketing agents for these fine wines. The Company's products are sold predominantly in Canada with a focus on export sales for its icewine and personal winemaking products.

Thirty Bench vineyard and winery is a small estate winery that produces VQA wines under the *Benchmark* and *Reserve* brands.

Red Rooster winery is a small estate winery that produces brands under the *Red Rooster* label.

Business Strategy

The Company is committed to a strategy of growth that focuses on the expansion of its core business as a producer and marketer of quality wines through concentrating on and developing leading brands that meet the needs of its customers. This strategy is supported by sophisticated sales, marketing, promotional, and distribution programs, as well as by an on-going review of opportunities in the market to launch new brands that meet the needs of customers. The Company will continue to explore opportunities in international markets to distribute its wines. In addition, the Company continues to seek out potential acquisitions that support its strategic direction and meet its growth and investment return criteria.

Sales

The Company's net sales for the year ended March 31, 2015 were \$315.7 million.

The Company's net sales volume is seasonal with highest volumes in the third quarter. Net sales and percentage of sales by quarter were as follows:

Quarter	2015		2014	
	\$ millions	%	\$ millions	%
First	79.5	25	72.7	24
Second	82.8	26	77.2	26
Third	84.6	27	81.9	28
Fourth	<u>68.8</u>	<u>22</u>	<u>66.0</u>	<u>22</u>
Total	<u>315.7</u>	<u>100</u>	<u>297.8</u>	<u>100</u>

Principal Products

The Company offers products across many segments of the wine market including: value blended table wines (<\$8), value priced sparkling and fortified wines (<\$8), and popular priced varietal wines (\$8-12). The wines in each of these segments are a blend of international and domestic wines. The Company also makes a range of 100% domestic VQA wines including entry level VQA wines (\$10-15), premium priced VQA wines (\$15-20), and super-premium priced VQA wines (>\$20). The super-premium VQA segment includes high end table wine, icewine, and sparkling wines. The Company also produces two import brands where the wine is 100% from the country of origin: *Franciscan* is a value priced California wine in the <\$8 segment and *Verano* is a premium priced Spanish wine sold in the \$10-15 segment.

The Company's two largest wine brands, *Peller Estates French Cross/Proprietors Reserve Varietals* and *Copper Moon*, are the 2nd and 3rd largest wine brands in all of English Canada in both volume and dollars. Both brands out performed year ago sales and performed well in each of our trade channels.

During the back half of fiscal 2014, the Company launched Black Cellar varietal table wines across English Canada. In fiscal 2015, the brand was supported with television advertising to promote its unique blends, smooth taste and award winning wines. The brand is positioned at a higher price point than Peller Estates French Cross/Proprietors Reserve Varietals and Copper Moon and offers a sweeter taste profile to appeal to the younger consumers. The Black Cellar brand was the fastest growing new brand in fiscal 2015 and is currently ranked 15th in the Alberta value varietal market on a rolling 12 month basis.

Three of the company's top ten brands, *Peller Estates French Cross/Proprietors Reserve* blends ("Peller Blends"), *Domaine D'Or*, and *Hochtaler* compete in the value blended segment. All three brands rank in the top five blended wine brands in English Canada and each increased their market share during fiscal 2015. *Domaine D'Or* continued to hold the number one spot in this segment. Other key brands that the Company has in the value blended segment are *Royal*, *Baby Canadian*, *Schloss Laderheim*, *Sommet*, and *Baby Duck*. The Company also sells value priced fortified wines with *Fine Old Sherry* and *Kelly's, a fortified aperitif wine*, the Company's largest brands in this segment.

The Company continued to invest in growing its VQA portfolio and had three brands in the top 15 VQA brand list for English Canada. *Peller Estates Family Series* is the Company's largest VQA brand and was the 5th largest VQA brand in English Canada in fiscal 2015. The brand continues to be found on many restaurant wine lists across the country. *Wayne Gretzky Wines* ranked as the 10th largest VQA brand in English Canada and was the fastest growing VQA brand in fiscal 2015. Line extensions, including The Great White and The Great Red under the Gretzky Okanagan label and an award winning Riesling under the Gretzky Niagara label, all helped drive this success. *Red Rooster Winery* was the 15th largest VQA brand in English Canada last year driven by strong distribution growth in Alberta. Social marketing initiatives continued to be successful in generating increased awareness of the brand which is one of the most followed B.C. wine brands. A Red Rooster Instagram account was launched in May 2015.

Trius, a well-respected premium VQA brand sold in Ontario, recorded a 14% increase in sales over the past year. The flagship offering within the portfolio, Trius Red, was a strong contributor to the growth with the 2012 Trius Red vintage receiving rave reviews and multiple top awards. An updated label design for *Trius Brut* and *Trius Brut Rose* was also well received by the consumer.

Sandhill produces VQA wines made from a single vineyard to offer a wine that delivers a more distinctive wine experience. The brand had another strong growth year. Three new single vineyard wines added to the portfolio in the previous year helped drive the strong growth including a *merlot* and a *syrah* from the *Vanessa Vineyard* in the Similkameen Valley and a *Sauvignon Blanc* from the company's *Hidden Terrace Vineyard* in the Okanagan Valley. *Hidden Terrace Vineyard* is nestled on a plateau behind the McIntyre Bluff where high altitude and sandy soils help produce delicate fruit and subtle nuanced wines. The *Vanessa Vineyard* has a southwest exposure and rock soil to help maximize the heat and sunlight available to the vines creating wines full of ripe fruit characteristics. The Company opened the *Sandhill Urban Winery* in Kelowna, British Columbia last spring providing another source of contact for consumers to interact with the brand. Digital touch screen monitors at the winery take the consumer directly to each of the single vineyards where Sandhill grapes are sourced.

Thirty Bench Winemakers, a smaller Ontario VQA brand from a boutique winery on the *Beamsville Bench*, grew at the market rate this past year. The *Winemakers Riesling* offering which sells for \$18.95 is a strong Vintages Essentials listing at the LCBO and found on many fine dining restaurant lists across Ontario.

Peller Estates Private Reserve and *Andrew Peller Signature Series* table wines are sold primarily at the *Peller Estates* winery in Niagara on the Lake. *Trius Showcase* and *Trius Divine White and Grand Red* are sold primarily at the *Trius Winery* in Niagara on the Lake and *Thirty Bench Small Lots* wines are sold primarily at the *Thirty Bench* winery.

In the premium VQA sparkling segment *Peller Estates Ice Cuvée*, *Ice Cuvée Rosé*, *Trius Brut Rose*, and *Showcase Sparkling* wines remain popular offerings in the Company's premium wine channels with *Peller Estates Ice Cuvée* also available in the LCBO.

The Company's Icewine sales continue to grow in the export channel due to strong relationships with key global partners. *Andrew Peller* icewine is sold in 20 countries around the world and continues to be listed in some of the top culinary establishments including Jean Georges and Per Se in New York City as well as Gordon Ramsay and Jamie Oliver in London, England. This year we made Canadian winemaking history with our launch of the unprecedented and ultra-premium Peller Estates 50 Brix Icewine. With a limited production of 1528 bottles, this rare and luxurious wine commands a retail selling price of \$499 which approaches that of first growth Bordeaux. In partnership with the world's largest global travel retail company, we opened an exclusive Canadian Icewine boutique in Toronto's Pearson International Airport. Further growth was supported by a national listing with one of the UK's most recognized wine retailers, and new distribution to Hong Kong. Our wines continue to be served on board cruise ships such as Celebrity in the US and P&O and Cunard in Europe, inflight through Air Canada

business class as well as in Montreal's Maple Leaf Lounge.

VQA brands in Eastern Canada received a total of 92 medals in fiscal 2015. The most prestigious accolade received was the "Winery of the Year" award won by Peller Estates at the 2014 National Wine Align Awards. The competition is judged by an extensive panel of the most respected wine writers and critics, retail buyers, Master of Sommelier and Masters of Wines in Canada. With 1335 wines being reviewed from 189 wineries across Canada, the Canadian Winery of the Year award is the highest distinction a winery can receive in the Canadian wine industry. The key individual award winners in this competition were: a Platinum Award for *Andrew Peller Signature Series Sauvignon Blanc 2012*, a Gold Medal for *Peller Estates Private Reserve Cabernet Sauvignon and Gamay Noir 2012*, a Gold Medal for *Thirty Bench Red 2012* as well as a gold medal for *Wayne Gretzky Riesling 2013*. Peller Estates won a second "Winery of the Year" award in 2014 at the Intervin Wine Awards run by Vines Magazine, Canada. In other competitions, *Peller Estates Private Reserve Gamay Noir 2012* received the Lieutenant Governor's Award for Excellence in Ontario wine and *Trius Red 2012* won numerous awards including a double gold medal at the 2014 All Canadian Wine Championships. Of the numerous icewine awards received by the Company, top honours went to the *Peller Estates Oak aged Icewine 2013* with a Grand Gold medal in the Icewine du Monde Competition and a Grand Gold award in the Decanter World Wine Awards in the UK. *Peller Estates Riesling Icewine 2012* also received a standout award winning the Trophy for the Best Dessert wine at the Japan Wine Challenge. *Trius* and *Gretzky* icewines also won key medals at the International Wine & Spirits Competition with *Trius Showcase Vidal Icewine 2012* winning a Gold Outstanding award and *Gretzky Vidal Icewine 2012* winning a gold medal.

VQA brands in Western Canada won a total of 177 medals this past year. In the most recent competition, the 2015 Okanagan Spring Wine Festival, the *Sandhill* brand was successful in winning four best in category/double gold medals for *Sandhill White Label Merlot Vanessa Vineyards 2012*, *Sandhill White Label Viognier 2014*, *Sandhill Small Lots Malbec 2012* and *Sandhill Small Lots Sangiovese 2012*. Other key awards included a gold medal at the LA international wine Competition for *Wayne Gretzky Okanagan The Great Red 2011*. *The Great Red 2011* also won a gold medal at the 2014 LA International Wine and Spirit Competition. *Gretzky Okanagan* also did well with gold medals for the *2013 Pinot Grigio* at the 2014 Pacific Rim International Wine Competition and for the *2012 Great White* at the 2014 Alberta Beverage Awards. *Red Rooster's* key award was for the *2012 Pinot Noir* which won a gold medal at the 2014 All Canadian Wine Championship. *Calona Vineyards 2012 Gewürztraminer* won a gold medal at the 2014 at the Tasters Guild International Wine Competition.

The Company's investment in social marketing increased in fiscal 2015 with our brands utilizing well known social media platforms such as Facebook, Twitter, YouTube, Instagram and Flickr. Along with consistent growth in likers and followers, there was an increase in engagement by our advocates. Trip Advisor continued to be a valuable tool for our winery visitors to rate their experience and read reviews to help in their decision making process. Winery events like Food Trucks and the Country Music Fare at Peller Estates and Jazz and Blues and Movies in the Vineyard at Trius Winery also were successful in driving new consumers to the wineries for an engaging end memorable experience. In fiscal 2016, a Rock Music event will be added to the music event lineup at Trius winery. The domains #TriusRedPresents for major Trius winery events and #PartyintheVineyard for the major Peller Estates events, will launch this spring to help promote these winery events. *The Wine Shop* retail channel in Ontario also actively used social media to help build awareness and to interact with the consumer on relevant content.

The production process to produce each of these wines involves the preparation of product, packaging, and shipping to customers. The nature of the process and the production inputs required vary by brand. The required liquid production inputs include purchased domestic grapes, grapes produced from APL owned vineyards, and bulk wine and juice purchased both in Canada and on international markets. The finished product is packaged in glass bottles, bag in box, tetra paks and kegs.

The Company's brand portfolio was distributed mainly through retailers of wine and wine-related products. Key sales channels include all liquor boards across English Canada, privately owned wine stores in B.C. and Alberta, 98 corporately owned retail stores in Ontario called *The Wine Shop*, two retail stores in Niagara on the Lake called *Wine Country Vintners* and one store in Toronto called *Wine Country Merchants*. The Company also sells wine to licensed restaurants and wine kits to private wine kit retailers. VQA wines are sold in the Estate Wineries in Eastern and Western Canada. Distribution in the Company's Export trade channel continues to grow with a focus on premium icewine. The Company continues to grow its direct to consumer sales with strong wine club offerings for Peller Estates, Trius, Thirty Bench, Sandhill and Red Rooster where select wines and recipes are sent directly to the consumers' homes each month or quarter.

Fiscal 2015 saw a further shift in moving towards selling wine within grocery stores in English Canada. Quebec has had a long standing practice of selling beer, as well as Quebec-bottled wine in grocery stores. Alberta privatized liquor sales in the 1990s, but grocery stores were not allowed to stock beer and wine inside the store so Alberta grocery chains opened their own liquor stores, right next to their grocery stores. Three years ago, the Nova Scotia Liquor board opened up a few government liquor stores within grocery stores, but nothing new has happened recently, and most government run liquor stores are already attached to grocery stores. Small pilot projects selling wine in grocery stores were started recently in Manitoba and New Brunswick and the Company is participating in these pilot projects. The B.C. government however recently introduced

legislation allowing for the sale of VQA wines in grocery stores starting April 2015. The first grocery store in BC to stock BC VQA wine opened in April 2015. The Company has listings in the current Save on Foods Store in BC and will work with all remaining grocery stores to ensure we have a strong listing base as they introduce VQA wine into their stores. The status of selling wine in grocery stores in Ontario beyond the private wine licenses that were grandfathered during the free trade agreement and owned by APL, Constellation and a few other wineries is under review.

Trademarks

The Company uses a number of significant trademarks which are owned by the Company or its subsidiaries. Significant trademarks include *Andrés Wines, Andrew Peller Limited, Peller Estates, Round Petal Wines, Trius, Thirty Bench, Red Rooster, Sandhill, Wayne Gretzky Estates, Wayne Gretzky Okanagan, Calona Vineyards, Crush, Domaine D'Or, Hochtaler, French Cross, Royal, XOXO, Black Cellar, Copper Moon, skinnygrape, Panama Jack, Schloss Laderheim, Franciscan, Baby Canadian, Baby Duck, Verano, Wine Country Vintners and The Wine Shop*. As part of the kit business, key trademarks include: *Vintners Reserve, California Connoisseur, European Select, Winexpert, Cheeky Monkey, KenRidge, Niagara Mist, Wine Kit, Cellar Craft, World Vineyard, Selection, Island Mist and Legacy*. Trademarks are important in the marketing and sale of wine and it is the Company's policy to vigorously protect its trademarks.

Other Intangible Properties

The Company has approximately 259 authorized retailer agreements in place relating to the distribution of home winemaking products across Canada.

Raw Materials

The Company purchases its raw materials, including grapes, wine, juice, concentrate, glass bottles, and other packaging materials from a wide range of suppliers from around the world.

In Ontario and B.C. grapes are purchased from a number of growers under supply contracts with the Company. In Ontario the Company is required to purchase grape tonnage to meet minimum legal requirements. Grape prices are negotiated annually between Ontario based producers and the Grape Growers' Marketing Board, while in British Columbia, grape prices are negotiated between the Company and individual growers. In B.C. the industry uses weighted average from the previous vintage as the basis for these negotiations. Grapes purchased in Ontario and B.C. are used primarily for the Ontario and B.C. markets, respectively.

In November 1997 the Company purchased 213 acres of prime grape-growing land in Niagara-on-the-Lake that has been developed with premium classical European ("vinifera") grape varieties such as Merlot, Cabernet Sauvignon, and Cabernet Franc. In 1998 the Company developed a 70 acre vineyard in Cawston, B.C. The Company's acquisition of Thirty Bench winery included 57 acres of some of the most highly regarded vineyards on the Beamsville Bench area of the Niagara region. The acquisition of Cascadia Brands in 2005 included 157 acres of vineyards along the Black Sage Road area in the south Okanagan Valley in B.C. This land was comprised of 2 parcels; 84 acres owned and 67 acres of vineyards leased from the Osoyoos Indian Band through 2029. During 2010 the Company sold approximately 6 acres of the owned vineyard to Burrowing Owl Vineyards Ltd. In November 2006 the Company leased 307 acres of prime grape growing land in the Oliver area of the Okanagan Valley in B.C. and planted a 294 acre vineyard. The lease has a term of 30 years expiring on October 31, 2036. Site preparation began during 2006 with planting occurring during 2007 and 2008. The Company's investment in vineyards has helped to ensure it has a high quality and consistent supply of grapes grown in Canada. Niagara-on-the-Lake, the Beamsville Bench, and the Okanagan and Similkameen Valleys in B.C. are four of the best locations in the world for the production of premium vinifera grapes.

The Company has entered into a number of contracts with over 75 grape growers in Ontario and B.C. to ensure that a continued supply of grapes is available. The contract terms vary from one to twelve years in duration and mature at varying times up to and including the 2027 harvest. The commitments to purchase grapes grown in Canada are approximately \$28 million per year.

To complement grapes purchased in Ontario and B.C. and to meet consumer demand in all regions of the country, the Company purchased wine, juice, and concentrate from suppliers around the world, primarily in Australia, Chile, South Africa, Spain and the United States. The Company has entered into advance purchase contracts with foreign suppliers to purchase imported wine through 2018. These contracts to purchase wine are approximately \$1 million to \$4 million per year.

The Company utilized various packaging materials, including glass bottles, bag in box, barrels, tetra paks, prisms, kegs, corks, capsules, labels, and cartons in the bottling and packaging of its wines. Glass bottles represented a significant component of the total cost of goods sold. The Company entered into an agreement with O-I Canada Corp. to purchase the majority of its glass requirements that expired on March 31, 2015. The Company is currently in the process of contracting a glass supply agreement with O-I Canada Corp. for a three year term. The Company enters into annual contracts with other domestic glass suppliers to ensure continuity of supply for high volume brands. The Company has entered into a glass supply contract with Saxco Canada Co. for premium imported glass from Italy and France. Supply risk is mitigated by carrying increased inventories of select bottles.

The Company considers its sources of supply to be adequate.

Other Principal Contracts

Credit Facilities

On April 28, 2014 the Company completed a refinancing with its existing bank group and entered into a \$165.0 million syndicated loan facility. The operating loan facility in the amount of \$90.0 million matures on April 28, 2019 and bears interest at

the one to nine-month Canadian Dealer Offered Rate (“CDOR”) plus a rate that is dependent on leverage. The rate that is dependent on leverage for the period ended March 31, 2015 was 1.50%. The term facility in the amount of \$60.0 million matures on April 28, 2019. The Company also added a \$15.0 million facility to fund future capital expenditures that also matures on April 28, 2019. The Company put in place an interest rate swap that complements the current swap that effectively fixes the interest rate on the term facility at 4.68% through August 31, 2015 and at 3.66% for the period from September 1, 2015 to April 28, 2019. The loan will be repayable in monthly principal payments of \$0.333 million until it matures on April 28, 2019.

The Company and its subsidiaries have provided their assets as security for these loans.

Foreign Exchange Contracts

The Company uses foreign exchange forward contracts to protect against changes in foreign currency rates and at June 17, 2015 had locked in \$22.1 million in U.S. dollar contracts at rates averaging \$1.23 Canadian, €3.5 million in Euro contracts at rates averaging \$1.42 Canadian, and \$4.0 million in Australian dollar contracts at rates averaging \$0.95 Canadian. These contracts expire at various dates through December 31, 2015.

Retail Store Leases

The Company has operating leases in place for its network of 101 *The Wine Shop, Wine Country Vintners, and Wine Country Merchants* retail store locations. These leases have terms that range from one year to six years in length.

Okanagan Valley Lease

On November 1, 2006 The Company entered into a 30 year lease with Covert Farms Ltd. for 307.1 acres of land in the Okanagan Valley in B.C. The lease expires on October 31, 2036.

Employees

As at March 31, 2015 the Company had a total of 1,121 employees, of whom 55 full and part-time employees were covered by a union contract and approximately 485 were full or part-time employees of *The Wine Shop, Wine Country Vintners, and Wine Country Merchants* chain of retail stores.

The union contract in Kelowna, B.C. is covered by a contract with the Brewery, Winery and Distillery Workers, Local 300. The Kelowna contract was renegotiated on June 1, 2013 and it expires on May 31, 2016.

Competition

The wine industry in Canada is intensely competitive based on quality, price, brand recognition, and distribution. The Company competes with a large number of domestic and international wine producers. The Company’s competitors range in size from large, well established national and multi-national corporations to small “farm gate” wineries that are limited to selling only wine produced from vineyards owned or controlled by the winery. The Company competes on the basis of providing value through a balance of quality and price, brand recognition, and distribution.

The Company is the second largest winery in Canada with a market share in English Canada, excluding wine coolers and ciders, of 13.8% as at March 31, 2015. The Company’s significant domestic competitors in Canada are Constellation Canada and Mission Hill (part of the Mark Anthony Group). Constellation’s domestic portfolio has a share of 14.7% of the English Canada market and Mission Hill has a share of 2.2% for the same time period.

Regulation

The business of the Company is extensively regulated by provincial legislation which governs the manufacture and sale of beverage alcohol. Provincial liquor authorities issue licences for the manufacture and sale of beverage alcohol in each province. Provincial regulations govern the pricing, packaging, labelling, advertising, production, and distribution of products manufactured by licensed wineries, breweries, and distilleries. The Company is in compliance in all material respects with provincial legislation that regulates the manufacture and sale of beverage alcohol. The Company is also in material compliance with all provincial and federal legislation relating to environmental regulations.

The Province of Ontario introduced, as part of the harmonized sales tax, a discriminatory tax in the form of a special levy, effective July 1, 2010, on International and Canadian blended (“ICB”) wines that are sold through private retail stores in Ontario. ICB is wine that is made through the blending of wine made from domestic grapes with wine purchased on international markets. Imported and domestic wine that is sold through the LCBO did not incur any additional taxation. The special levy has put pressure on gross profit, on domestic grape prices and will negatively impact future domestic grape purchases. The cost of the levy amounted to \$2.0 million in fiscal 2015 and in fiscal 2014.

The Company is subject to environmental regulation at the federal, provincial, and municipal levels. The Company is

committed to addressing environmental matters and to continually improving its environmental performance. Environmental highlights are presented to the Board of Directors quarterly and environmental improvements are incorporated into the business planning cycle. In fiscal 2015 at the Company's Kelowna location, a third party sustainability audit was conducted at our Kelowna Winery and Sandhill retail store. This audit resulted in a silver certification for APL. Environmental performance is monitored internally with a focus on reducing waste, improving processes, and sourcing new recycling streams while meeting environmental laws and regulation. In fiscal 2015, several sites were assessed by a third party environmental engineering company for process improvements pertaining to water, natural gas and electricity usage and for waste reduction opportunities. Projects were identified and implemented in all categories and specific reduction targets were set. The Company is also subject to local by-laws with respect to wastewater discharge at each of its production facilities and works in partnership with various levels of government to obtain all required environmental permits. APL has implemented measures to reduce wastewater at the source and is actively experimenting with innovative and sustainable ways to reduce biological oxygen demand. The Company continues to invest in environmental infrastructure related to water, air, utilities and waste to ensure that regulations and environmental standards are met and that the Company's targeted reduction in environmental impact is achieved.

Risks and Uncertainties

The Company's sales of wine are affected by general economic conditions such as changes in discretionary consumer spending and consumer confidence, future economic conditions, tax laws, and the prices of its products. A steep and sustained decline in economic growth may cause a lower demand for the Company's products. Such general economic conditions could impact the Company's sales through the Company's estate wineries and restaurants, direct sales through licensed establishments, and export sales through duty free shops. APL believes that these effects would likely be temporary and would not have a significant impact on financial performance.

The Canadian wine market continues to be the target of low-priced imported wines from regions and countries that subsidize wine production and grape growing as well as providing sizeable export subsidies. Many of these countries and regions prohibit or restrict the sale of imported wine in their own domestic markets. The Company, along with other members of the Canadian wine industry, are working with the Canadian government to rectify these unfair trade practices.

The Company operates in a highly competitive industry and the dollar amount and unit volume of sales could be negatively impacted by its inability to maintain or increase prices, changes in geographic or product mix, a general decline in beverage alcohol consumption, or the decision of retailers or consumers to purchase competitive products instead of the Company's products. Retailer and consumer purchasing decisions are influenced by, among other things, the perceived absolute or relative overall value of the Company's products, including their quality or pricing compared to competitive products. Unit volume and dollar sales could also be affected by purchasing, financing, operational, advertising, or promotional decisions made by provincial agencies and retailers which could affect supply of or consumer demand for, the Company's products. APL could also experience higher than expected selling and administrative expenses if it finds it necessary to increase the number of its personnel, advertising, or promotional expenditures to maintain its competitive position.

APL expects to increase its sales of its premium wines in Canada principally through the sale of VQA wines, and as a result, is dependent on the quality and supply of domestically grown premium quality grapes. If any of the Company's vineyards or the vineyards of our grape suppliers experience certain weather variations, natural disasters, pestilence, other severe environmental problems, or other occurrences, APL may not be able to secure a sufficient supply of grapes, a situation which could result in a decrease in production of certain products from those regions and/or result in an increase in costs. In the past, where there has been a significant reduction in domestically sourced grapes, the Government of Ontario, in conjunction with the Ontario Grape Growers Marketing Board, have agreed to temporarily increase the blending of imported wines which would enable the Company to continue to supply products to the market. The inability to secure premium quality grapes could impair the ability of the Company to supply certain wines to its customers. The Company has developed programs to ensure it has access to a consistent supply of premium quality grapes and wine. The price of grapes is determined through negotiations with the Ontario Grape Growers Marketing Board in Ontario and with independent growers in British Columbia.

Foreign exchange risk exists on the purchases of bulk wine and concentrate that are primarily made in United States dollars, Euros, and Australian dollars. The Company's strategy is to hedge approximately 50% - 80% of its foreign exchange requirements throughout the fiscal year and to regularly review its on-going requirements. The Company has entered into a series of foreign exchange contracts as a hedge against movements in U.S. dollar and Euro exchange rates. The Company does not enter into foreign exchange contracts for trading or speculative purposes. These contracts are reviewed periodically. During fiscal 2016, based on the Company's forecasts for foreign currency purchases and the amount of foreign exchange forward contracts outstanding at June 17, 2015, each one percent change in the value of the U.S. dollar will have a \$0.3 million impact on the Company's net earnings. Each one percent change in the value of the Euro will have a \$0.1 million impact on the Company's net earnings and a one percent change in the value of the Australian dollar will have a \$0.1 million impact on the Company's net earnings.

The Company purchases glass, bag in box, tetra paks, and other components used in the bottling and packaging of wine. The largest component in the packaging of wine is glass, of which there are few domestic or international suppliers. There is currently only one commercial supplier of glass in Canada that is able to supply glass to APL's specifications. Any interruption in supply could have an adverse impact on the Company's ability to supply its markets. APL has taken steps to reduce its dependence on domestic suppliers through the development of relationships with several international producers of glass and through carrying increased inventory of selected bottles.

The Company operates in a highly regulated industry with requirements regarding the production, distribution, marketing, advertising, and labelling of wine. These regulatory requirements may inhibit or restrict the Company's ability to maintain or increase strong consumer support for and recognition of its brands and may adversely affect APL's business strategies and results of operations. Privatization of liquor distribution and retailing has been implemented in varying degrees across the country. The possibility of privatization in Ontario remains a risk to the Company through its impact on the Company's retail operations. The provincial government has stated that, should it consider privatization, it would engage in a consultation process and would acknowledge the special role of Ontario's wine industry.

During fiscal 2015, the Government of Ontario set up a special government advisory panel to look at methods to extract more value from its assets which includes the LCBO. Following this review, the Government announced that it will issue licenses to sell beer in grocery stores. There were no significant decisions announced in respect of changes to the distribution of wine in the Province of Ontario. However, there is a risk that significant changes may be made in the future and these changes could have a material impact on the Company.

The Province of British Columbia has recently announced that it will allow the sale of wine in grocery stores amongst other changes in liquor policies. The impact of these changes will remain uncertain until details are known and they are implemented.

The wine industry and the domestic and international market in which the Company operates are consolidating. This has resulted in fewer, but larger, competitors who have increased their resources and scale. The increased competition from these larger market participants may affect the Company's pricing strategies and create margin pressures resulting in potentially lower revenues. Competition also exerts pressure on existing customer relationships which may affect APL's ability to retain existing customers and increase the number of new customers. The Company has worked to improve production efficiencies, selectively increase pricing to increase gross margin, and implement a higher level of promotion and advertising activity to combat these initiatives. APL and other wine industry participants also generally compete with other alcoholic beverages like beer and spirits for consumer acceptance, loyalty, and shelf space. No assurance can be given that consumer demand for wine, and premium wine products, will continue at current levels in the future.

Federal and provincial governments impose excise and other taxes on beverage alcohol products which have been subject to change. Significant increases in excise and other taxes on beverage alcohol products could materially and adversely affect the Company's financial condition or results of operations. Federal and provincial governmental agencies extensively regulate the beverage alcohol products industry concerning such matters as licensing, trade practices, permitted and required labelling, advertising, and relations with consumers and retailers. Certain federal and provincial regulations also require warning labels and signage. New or revised regulations or increased licensing fees, requirements, or taxes could also have a material adverse effect on the Company's financial condition or results of operations.

The Company's future operating results also depend on the ability of its officers and other key employees to continue to implement and improve its operating and financial systems and manage the Company's significant relationships with its suppliers and customers. The Company is also dependent upon the performance of its key senior management personnel. The Company's success is linked to its ability to identify, hire, train, motivate, promote, and retain highly qualified management. Competition for such employees is intense and there can be no assurances that the Company will be able to retain current key employees or attract new key employees.

The Company has defined benefit pension plans. The expense and cash contributions related to these plans depend on the discount rate used to measure the liability to pay future benefits and the market performance of the plan assets set aside to pay these benefits. A pension committee reviews the performance of plan assets on a regular basis and has a policy to hold diversified investments. Nevertheless, a decline in long-term interest rates or in asset values could increase the Company's costs related to funding the deficit in these plans.

The competitive nature of the wine industry internationally has resulted in the discounting of retail prices of wine in key markets such as the United States and the United Kingdom. The Company does not believe that significant price discounting will occur in Canada beyond current levels.

The Company considers its trademarks, particularly certain brand names and product packaging, advertising, and promotion design and artwork to be of significant importance to its business and ascribes a significant value to these intangible assets. The Company relies on trademark laws and other arrangements to protect its proprietary rights. There can be no assurance that the steps taken by APL to protect its intellectual property rights will preclude competitors from developing confusingly similar brand names or promotional materials. The Company believes that its proprietary rights do not infringe upon the proprietary rights of third parties, but there can be no assurance in this regard.

As an owner and lessor of property, the Company is subject to various federal and provincial laws relating to environmental matters. Such laws provide that the Company could be held liable for the cost of removal and remediation of hazardous substances on its properties. The failure to remedy any situation that might arise could lead to claims against the Company. A perceived failure to maintain high ethical, social, and environmental standards could have an adverse effect on the Company's reputation.

The success of the Company's brands depends upon the positive image that consumers have of those brands. Contamination of APL's products, whether arising accidentally or through deliberate third-party action, or other events that harm the integrity or consumer support for those brands could adversely affect their sales. Contaminants in raw materials purchased from third parties and used in the production of the Company's products or defects in the fermentation process could lead to low product quality as well as illness among, or injury to, consumers of the products and may result in reduced sales of the affected brand or all of the Company's brands.

DIVIDEND POLICY

The Company's Class A Shares (non-voting) ("Class A Shares") are entitled to a dividend in an amount equal to 115% of any dividends paid or declared on Class B Shares (voting) ("Class B Shares"). On June 3, 2015 the Company announced a 7.1% increase in common share dividends. The quarterly dividend on Class A Shares increased to 11.25 cents and on Class B Shares to 9.78 cents. On June 4, 2014 the Company announced a 5% increase in common share dividends. The quarterly dividend on Class A Shares increased to 10.50 cents and on Class B Shares to 9.125 cents. On June 5, 2013 the Company announced an 11% increase in common share dividends. The quarterly dividend on Class A Shares increased to 10.00 cents and on Class B Shares to 8.70 cents. On June 8, 2011 the quarterly dividend on Class A Shares increased to 9.00 cents and on Class B Shares 7.85 cents. Prior to that date, the quarterly dividend rates were 8.25 cents per Class A Share and 7.20 cents per Class B Share. The Company's dividend payments are reviewed annually by the board of directors.

DESCRIPTION OF CAPITAL STRUCTURE

The authorized share capital of the Company consists of an unlimited number of Preference Shares, issuable in one or more series, of which 33,315 are designated as Preference Shares, Series A, an unlimited number of Class A Shares and an unlimited number of Class B Shares. The only classes of shares of APL that are issued and outstanding are Class A Shares and Class B Shares. The only shares of the Company which are entitled to vote on matters set out in the notice of meeting of security holders are the Class B Shares. On March 31, 2014 the Company had outstanding 3,004,041 Class B Shares without nominal or par value, each carrying the right to one vote per share, and 11,293,829 Class A Shares. On March 14, 2011 the Company purchased, for cancellation, 594,412 Class A Shares through a Normal Course Issuer Bid. Neither the Class A Shares nor the Class B Shares may be subdivided, consolidated, reclassified, or otherwise changed unless contemporaneously therewith the other class of shares is subdivided, consolidated, reclassified or otherwise changed in the same manner and in the same proportion. In the event of liquidation, dissolution, or a winding-up of the Company, all of the Company's property and assets available for distribution to the holders of Class A Shares and Class B Shares shall be paid or distributed equally, share for share, to the holders of Class A Shares and Class B Shares, respectively. In the event a takeover bid is made for Class B Shares, the holders of Class A Shares have no right to participate on such takeover bid.

As described above, Class A Shares are non-voting securities and are entitled to a dividend in an amount equal to 115% of any dividend paid or declared on Class B Shares. Class B Shares are voting securities and convertible into Class A Shares on a one-for-one basis.

MARKET FOR SECURITIES

SCHEDULE "A"

CHARTER OF THE AUDIT, FINANCE, AND RISK COMMITTEE OF THE BOARD OF DIRECTORS OF ANDREW PELLER LIMITED

Purpose

The primary purpose of the audit committee (the "Audit Committee") of the board of directors (the "Board") of Andrew Peller Limited (the "Corporation") is to assist the Board of Directors in fulfilling its oversight responsibilities for the Corporation's internal control and management's information systems; reviewing the quarterly financial statements and managements' discussion and analysis prior to their release and recommend their approval to the Board; reviewing the annual audited financial statements and management's discussion and analysis prior to their release and recommend their approval to the Board; reviewing accounting and auditing developments and meeting with both financial and accounting personnel and the external auditors on issues relevant to the Corporation; reviewing the Corporation's policies and practices relating to insurance coverage, foreign exchange and interest rate hedging and, reviewing and assessing the qualifications, independence, and performance of the Corporation's auditors.

Consistent with this function, the Audit Committee should encourage continuous improvement of, and should foster adherence to, the Corporation's policies, procedures, and practices.

Approval of Charter

This Audit Committee charter requires approval by the Board.

Future changes to this charter require approval by the Board based on the recommendation of the Audit Committee.

Structure and Composition

The Audit Committee shall consist of no fewer than three members from among the Board.

Each member of the Audit Committee shall be free from any relationship that, in the opinion of the Board, would interfere with the exercise of his or her independent judgement as a member of the Audit Committee; and meet the independence and experience requirements of the Toronto Stock Exchange and all applicable rules and regulations in Canada relating to corporate governance and audit committee matters, including Multilateral Instrument 52-110 (the "Regulations").

All members of the Audit Committee must be "financially literate" as such term is defined by the Regulations. The Board shall make determinations as to whether each member of the Audit Committee satisfies this requirement. The members of the Audit Committee shall be appointed by the Board annually on the recommendations of the Human Resource and Governance Committee or until successors are duly appointed.

The Board shall normally designate the Chair of the Audit Committee. In the event that a Board designation is not made, the members of the Audit Committee shall elect a temporary Chair for such meeting by majority vote of the members in attendance at the meeting.

Once appointed, Audit Committee members shall cease to be a member of the Audit Committee only upon:

- (i) resignation from the Board
- (ii) death
- (iii) disability
- (iv) not being re-appointed pursuant to the appointment process described above.

Meetings

The Audit Committee shall meet at least quarterly and more frequently as circumstances dictate.

A majority of Audit Committee members are required for meeting quorum. In the event that the number of Audit Committee members is an even number, one half of the number of members shall constitute a quorum.

The Audit committee shall meet at least annually with management and the Corporation's auditor in separate committee sessions.

The Audit Committee may request any officer or employee of the Corporation or the Corporation's outside counsel or independent auditor to attend a meeting of the Audit Committee or to meet or provide consultations to the Audit Committee or

any member thereof.

The CEO, the CFO and Executive Vice-President Human Resources of the Corporation, and representatives of the independent auditors shall normally attend meetings of the Audit Committee. Others may also attend meetings as the Audit Committee may request. Notice of all meetings of the Audit Committee shall be sent to the Auditors as well as Audit Committee members.

Resolutions

Resolutions of the Audit Committee shall require approval by a simple majority of members voting on such resolution. The Chair of the Audit Committee shall not have a deciding vote in the case of a tie.

Responsibilities and Duties

Other Advisors

The Audit Committee shall have the authority to retain independent legal, accounting or other advisors including consulting with the national office of the independent auditor. The Corporation shall provide for appropriate funding, as determined by the Audit Committee, for payment of compensation to the independent auditor for the purpose of rendering or issuing an audit report and to any advisors employed by the Audit Committee.

Limitations on Committee’s Duties

While the Audit Committee has the responsibilities and power set forth in this Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Corporation’s financial statements and disclosures are complete and accurate and are in accordance with generally accepted accounting principles and applicable rules and regulations. These are the responsibilities of either management and/or the independent auditor.

In discharging its duties, each member of the Audit Committee shall be obliged only to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Nothing in this Charter, including designating any member of the Committee as an “audit committee financial expert” is intended, or should be determined to impose on any member of the Committee a standard of care or diligence that is in any way more onerous or extensive than the standard to which all members of the Board are subject.

The essence of the Committee’s responsibilities is to monitor and review the activities described in this Charter to gain reasonable assurance (but not to ensure) that such activities are being conducted properly and effectively by the Corporation.
